Listening

• Exercise 1 on lesson 1 SB page 100

Our planet is important, and we all need to take care of it. Pollution, deforestation, and climate change are harming the environment. We can help by recycling, saving energy, and planting trees. Using less plastic and walking or cycling instead of driving can also make a difference. Everyone can do small things to protect the Earth. If we all work together, we can make the planet cleaner and healthier for future generations.

3. Read the following text and answer the following questions:

Ahmed and Ramzi were reading a story to share with their class. Their teacher asked each student to bring a story that teaches a lesson. Ahmed wanted a story about honesty, while Ramzi preferred a story about helping others. They met after school to read their stories aloud and help each other improve. Ahmed added a clearer ending, and Ramzi improved his introduction with a few descriptive sentences. Both boys felt more confident after working together. Early the next day, they met again briefly to review their notes and make sure everything sounded smooth. Later in class, their classmates enjoyed listening to their stories. Their teacher praised them for their teamwork and preparation. Ahmed and Ramzi realized that practicing with a partner made storytelling easier, more enjoyable, and helped them understand how to communicate ideas more effectively.

"A Fairy Tale You Read Recently"

Cinderella

I recently read the story of Cinderella. It is a famous fairy tale about a beautiful and kind girl. She lived with her cruel stepmother and two unkind stepsisters who made her work as a servant. One day, the King made a big party. Cinderella was sad because she had no nice clothes. Suddenly, a kind fairy appeared and gave her a beautiful dress and glass slippers. She went to the party and met the prince. He fell in love with her kindness. In the end, they married and lived happily ever after. I like this story because it teaches us that good people are always rewarded.

3)Read the following text and answer the following questions:

Ahmed and Ramzi were preparing a story to share with their class. Their teacher asked each student to bring a story that teaches a lesson. Ahmed wanted a story about honesty, while Ramzi preferred a story about helping others. They met after school to read their stories aloud and help each other improve. As they practiced, they listened carefully, gave opinions politely, and suggested small changes. Ahmed added a clearer ending, and Ramzi improved his introduction with a few descriptive sentences.

Both boys felt more confident after working together. Early the next day, they met again briefly to review their notes and make sure everything sounded smooth. Later in class, their classmates enjoyed listening to their stories. Their teacher praised them for their teamwork and preparation. Ahmed and Ramzi realized that practicing with a partner made storytelling easier, more enjoyable, and helped them understand how to communicate ideas more effectively.

Subject: An unusual story!
Dear Mahmoud,
I hope you are doing well. I want to tell you about an unusual story I read recently called "The Library That Time Forgot." It is a fascinating tale about a hidden place where all the lost books in the world end up. The main characters have to solve ancient puzzles to find their way out before they become trapped in the stories forever!
It was full of mystery and unexpected twists, and it taught me that knowledge is a powerful tool. I highly recommend you read it when you have some free time. Let me know what you think!
Yours,
Mohamed Said

Group (B)

Write a paragraph of about 100 words about:

“A camp with my friends”

Group (C)

Write a paragraph of about 100 words about:

“Visiting my uncle’s farm”

Last week, I had an amazing trip to the desert with my family. We woke up very early before sunrise. The weather was cool and the air was fresh. During the day, the sun became very hot, so we rested inside a Bedouin tent. In the afternoon, we went on a camel ride and saw the beautiful yellow sand dunes. The desert was very quiet and peaceful. At night, the temperature dropped and it became freezing. We sat around a warm campfire, ate delicious traditional food, and looked at the bright stars. It was an unforgettable day.

Last month, our school organized a fantastic camping trip for my friends and me. We went to a beautiful place near the mountains. When we arrived, we worked together to build our tents. It was hard work, but we helped each other. After that, we climbed the hills and took many great photos. In the evening, we made a big campfire. We sat around it, sang our favorite songs, and told funny stories. We slept in the tents, which was a new and exciting adventure. We learned a lot about teamwork and had a wonderful time.

Every summer holiday, I love visiting my uncle’s farm in the countryside. It is a very peaceful and beautiful place. When I go there, I usually wake up early to breathe the fresh, clean air. I spend the morning helping my uncle feed the farm animals, like cows, sheep, and chickens. Sometimes, I help him collect fresh eggs and pick delicious fruits from the trees. In the afternoon, I enjoy running in the green fields and playing with my cousins. Life on the farm is simple and quiet, far from the noise and pollution of the city.

3- In your opinion, what is the lesson behind Mowgli's story?

4- After reading the story, how do you think people can achieve balance between life and the nature?

He defended the jungle against hunters who killed needlessly, and he helped the villagers protect their cattle and crops from wild animals.

By keeping a balance between the jungle and the village, helping both worlds and living in harmony with them.

The lesson is that balance, courage, and loyalty are important, and that people can belong to different worlds and live in harmony with both nature and humans.

People can achieve balance by respecting nature, protecting it from harm, and using resources wisely while maintaining their own lives and communities.

Weekly Assessment

Group (A)

Write a paragraph of about 100 words about:

“Help The Environment”

Group (B)

Write a paragraph of about 100 words about:

“Solve the Problem of Pollution”

Group (C)

Write a paragraph of about 100 words about:

“Keep our School Clean and Green”

Our environment is in danger, but we can all help to save it. Small actions can make a big difference if we work together. First, we should plant more trees because they give us clean oxygen and reduce global warming. Second, we must save water by turning off the tap when we brush our teeth. Also, we can reduce waste by recycling old paper, plastic, and glass instead of throwing them away. Finally, using clean energy like solar panels is a great way to stop pollution. If everyone cares for the Earth, our world will be a much safer place.

School is our second home, so it is very important to keep it clean and green. My classmates and I in Prep 2 always work together to protect our school environment. We make sure to throw our rubbish in the correct bins and never drop litter on the playground. We also started a recycling project to collect old paper and plastic bottles. To make our school green, we planted beautiful flowers and small trees for The School Garden Project. By keeping our school clean, we create a healthy and happy place for everyone to learn.

Pollution is one of the most serious problems facing our incredible Earth today. It harms humans, animals, and plants. To solve this problem, we need to take action quickly. Instead of driving cars everywhere, we can walk, cycle, or use public transport to reduce air pollution. Factories should also use clean energy like solar or wind power instead of burning fossil fuels. Furthermore, we must stop throwing plastic waste into rivers and oceans to protect marine life. By recycling our rubbish and planting more green trees, we can keep the air clean and stop climate change.

Review on Unit (12)

1- Complete the following dialog:

Maged : Nabila, can you believe that Earth is around(1) billion years old? That's such an incredible stretch of time.

Nabila : It really is! And when you think about places like the Sahara(2) being visible from space, it feels unreal.

Maged : True—and the Amazon rainforest is often called the lungs of the (3) because it produces so much oxygen.

Nabila : Yes! And then there's Mount Everest, the tallest mountain on Earth, challenging climbers with its(4) peak.

Maged : What amazes me most is that we've explored only about 5% of the oceans.

2- Complete the text with words from the box:

healthy - pollution - threatened - wildlife - natural

In the last 50 years, humans have cut down millions of trees and destroyed large areas of forest. As a result, many animals have lost their(1) homes, and some have become endangered. Scientists warn that air pollution and climate change are rising quickly. However, people are taking action. Many countries use solar panels and recycling programs to reduce (2) and protect(3) . Organizations also help (4) animals and keep ecosystems healthy.

3- Read the following text and answer the following questions:

Earth is a planet filled with remarkable features, many of which continue to amaze scientists and explorers. The Sahara Desert, one of the largest deserts in the world, is so vast that astronauts can spot it from space. On the opposite side of the planet lies the Amazon rainforest, often called "the lungs of the Earth" because it produces a large amount of oxygen. Another impressive landmark is Mount Everest, the tallest mountain on Earth, challenging climbers with freezing temperatures and thin air. Although humans have explored the land extensively, more than 90% of the oceans remain hidden. This huge unexplored world reminds us that our planet still holds countless mysteries waiting to be discovered.

A) Choose the correct answer from a, b, c or d:

- What is the main idea of the passage?

Model Exam 1:

Smart learning uses modern technology to help students study in faster and easier ways. Instead of only using books, learners can watch videos, join online classes, and use educational apps. This makes learning more interesting and personal. Students can study at their own pace and review lessons anytime. Smart learning also helps teachers track progress and give better feedback. It prepares students for a world where technology is part of everyday life.

Model Exam 2:

Our planet is very important, and we all have to take care of it. Pollution, deforestation, and climate change are harming the environment. We can help by recycling, saving energy, and planting trees. Using less plastic and walking or recycling instead of driving can also make a difference. Everyone can do small things to protect the Earth. If we all work together, we can make the planet cleaner and healthier for future generations.

Salma says her school project this week is to think about rubbish at school. In her school, they have a rubbish bin in every room. The students are very good and they always put their rubbish in the bins. The rubbish is collected every week and goes to a special place in the city. But when they look inside the bins, they can see that most of the rubbish is made of paper or plastic. They can recycle a lot of this rubbish. So now, before students put things in the rubbish bins, the teachers ask them to think, "Can we recycle that?" If the answer is yes, they can put it in a special bin so it can be used again.

Omar was a quiet boy who loved reading. Every week, he went to the school library to borrow new books. His favorite stories were about famous inventors and explorers. **They** inspired him to dream and work hard. However, his friends didn't understand why he spent so much time reading. They preferred to play games after school.

One day, the school announced a reading challenge. Students had to read five books in one month and write short summaries. Omar felt excited and joined immediately. At first, it was difficult, but he stayed patient and organized his time. When the month ended, Omar had read eight books instead of five. His summaries were full of interesting ideas and strong vocabulary. The teachers praised his effort, and his friends were surprised by his success. From that day, Omar became a role model in his class. He learned that dedication and love for learning always lead to great achievements.

Artificial intelligence, or AI, is changing the world in many ways. It helps people solve problems more quickly and perform tasks that used to take hours. For example, AI can translate languages, recognize faces, and predict weather conditions. Many students use AI-powered apps to check their homework or learn new skills. Although AI makes life easier, it must be used wisely. Some people worry that depending too much on AI might make humans less creative. Others fear that machines could replace jobs in the future. However, experts believe that AI will create new opportunities and help people work more efficiently. AI is not meant to replace humans; instead, it supports them by handling difficult or repetitive tasks. When used responsibly, **it** can improve education, healthcare, and communication. Understanding AI is important for young people today because it will play a big role in the jobs of tomorrow.

1. **What is the main idea of the text?**

Ahmed and Ramzi were preparing a story to share with their class. Their teacher asked each student to bring a story that teaches a lesson. Ahmed wanted a story about honesty, while Ramzi preferred a story about helping others. They met after school to read their stories aloud and help each other improve. As they practiced, they listened carefully, gave opinions politely, and suggested small changes. Ahmed added a clearer ending, and Ramzi improved his introduction with a few descriptive sentences. Both boys felt more confident after working together. Early the next day, they met again briefly to review their notes and make sure everything sounded smooth. Later in class, their classmates enjoyed listening to their stories. Their teacher praised them for their teamwork and preparation. Ahmed and Ramzi realized that practicing with a partner made storytelling easier, more enjoyable, and helped them understand how to communicate ideas more effectively.

1. **Why did the boys practice together?**
 - a. To finish quickly
 - b. To improve their stories
 - c. To memorize new vocabulary
 - d. To waste time
2. **How did they feel after practicing?**
 - a. Confident
 - b. Angry
 - c. Tired
 - d. Happy with their teamwork
3. **What kind of stories did the teacher ask the students to bring?**
4. **When did Ahmed and Ramzi meet to practice their stories?**
5. **What did their teacher praise them for?**

Many forest animals are active at different times of day. Owls hunt at night with sharp eyes and silent wings, while monkeys swing through trees during the day to find fruit. Elephants use their trunks to gather food and water, while insects hide under leaves or bark. These unique behaviors help them survive in crowded and competitive habitats.

Plants and animals also depend on each other in the forest. Some birds eat insects that damage trees, and some plants provide fruits and shelter to animals. Every living thing plays an important role in this ecosystem. Forest wildlife teaches us to be careful, cooperative, and to live in harmony with nature.

1. **The passage mainly describe _____.**
 - a. The dangers of deserts
 - b. Forest animals and plants and how they survive
 - c. How to climb trees
 - d. Ocean wildlife

• **4. Read the following text, then answer the questions: (7 Marks)**

Earth is a planet filled with remarkable features, many of which continue to amaze scientists and explorers. The Sahara Desert, one of the largest deserts in the world, is so vast that astronauts can spot it from space. On the opposite side of the planet lies the Amazon rainforest, often called "the lungs of the Earth" because it produces a large amount of oxygen. Another impressive landmark is Mount Everest, the tallest mountain on Earth, challenging climbers with freezing temperatures and thin air. Although humans have explored the land extensively, more than 90% of the oceans remain hidden. This huge unexplored world reminds us that our planet still holds countless mysteries waiting to be discovered.

1. What is the main idea of the passage?

- a. The dangers of climbing Mount Everest b. Different natural wonders that make Earth extraordinary
c. Why space exploration is important d. How deserts form
